A Secure Base Parent-Child Attachment and Healthy Human Development -xiii- LECTURE 1 Caring for children During the early months of 1980 I was giving lectures in the United States. Amongst invitations reaching me was one from the psychiatric staff of the Michael Reese Hospital in Chicago to address a conference on parenting.

A SECURE BASE - increase-project.eu

Therapists function as a secure base. Research supports the idea that therapists function as a secure base. Studies show that therapists are perceived as providing the same secure base as spouse and family, are considered a safe haven to turn to for comfort during distress, provoke separation protest when absent, and produce feelings of safety, acceptance, and support in clients.

Therapists function as a secure base - Evergreen ...

Attachment does not mean that the child always wants to be right next to the caregiver. When a child forms a secure attachment with a parent or other caring adult, she has a secure base. This is like the diving platform in the middle of the lake or the home base that keeps a person safe when playing tag.

PPP: Family-Child Relationships || Secure Base || A ...

The secure base concept is central to the logic and coherence of attachment theory and to its status as an organizational construct. For both Bowlby and Ainsworth, to be attached is to use someone preferentially as a secure base from which to explore.

A Secure Base From Which To Explore Close Relationships

The main idea of attachment theory is that the caregivers provides the baby with a safe and secure base from which to explore the world. The baby knows that it is safe to venture out and explore the world, and that the caregiver will always be there to come back to for comfort in times of stress and discomfort.

Attachment Theory: Main Characteristics of Attachment ...

Characteristics of Attachment. There are four basic characteristics that basically give us a clear view of what attachment really is. They include a safe haven, a secure base, proximity maintenance and separation distress. These four attributes are very evident in the relationship between a child and his caregiver.
