For many users, working in the Unix environment means using vi, a full-screen text editor available on most Unix systems. Even those who know vi often make use of only a small number of its features.. The vi Editor Pocket Reference is a companion volume to O'Reilly's newly updated Learning the vi Editor, now in its 6th edition, a complete guide to text editing with vi.

In the sport of Australian rules football, each of the eighteen players in a team is assigned to a particular named position on the field of play. These positions describe both the player's main role and by implication their location on the ground. As the game has evolved, tactics and team formations have changed, and the names of the positions and the duties involved have evolved too.

Reserved words FORTRAN has no reserved words. All words have meaning based on context. For example, the following is legal, though unwise, in FORTRAN IF (IF.EQ.THEN) IF=IF\*THEN where the first use of the word IF refers to the keyword for a selection control structure, while the other uses refer to a variable named IF; likewise, THEN is used in the context of a variable in this statement.
