Section 3.3 overviews a variety of formal grammars, and Sect. 3.4 covers automata needed to follow the rest of this book. Readers familiar with the classical concepts used in formal languages theory should primarily concentrate their attention to non-classical concepts covered in this chapter, such as language-defining devices working in parallel.

Chapter 3 Rudiments of Formal Language Theory - Springer

Abstract. With the 4th generation technology (4G), only being deployed for a few years, 5G technology is slowly emerging to support the Internet of things (IoT), where millions of sensors and mobile devices will be deployed in order to provide data for smart homes, smart buildings and smart cities. 5G networks will have to handle data (collection, storage, mining, analysis, etc.) gathered from ...

(c) As in question 3, the contamination must be contained as a first priority. Using a chelating agent may change the chemical structure of the substance spilled but will not affect the radioactivity of it. The Radiation Safety Officer should be notified, but first access to the area of the spill must be restricted.
