Creator God Evolving World

Description. Creator God, Evolving World clarifies a number of confused assumptions in an effort to redeem chance as an intelligible force interacting with stable patterns in nature. By clarifying terms often used imprecisely in both scientific and theological discourse, the authors make the case that the role of chance in evolution neither mitigates...

Creator God, Evolving World | Fortress Press

Finally, this view of God and the evolving world yields implications for our understanding of human action. Moral agency, even God's work of redemption, unfolds according to an ethic of risk rather than by the quick fix of determinative control. Creator God, Evolving World: Cynthia Crysdale, Neil ...

Creator God, Evolving World. Cynthia Crysdale and Neil Ormerod here present a robust theology of God in light of supposed tensions between Christian belief and evolutionary science. Those who pit faith in an almighty and unchanging God over against a world in which chance is operative have it wrong on several accounts, they insist.

Creator God, Evolving World by Cynthia S.W. Crysdale

Creator God, Evolving World clarifies a number of confused assumptions in an effort to redeem chance as an intelligible force interacting with stable patterns in nature. A proper conception of probabilities and regularities in the world's unfolding reveals neither random chaos nor a predetermined blueprint but a view of the universe as the fruit of both chance and necessity.

Creator God, Evolving World clarifies a number of confused assumptions in an By clarifying terms often used imprecisely in both scientific and theological discourse, the authors make the case that the role of chance in evolution neither mitigates God's radical otherness from creation nor challenges the efficacy of God's providence in the world.

Creator God, evolving world (Book, 2013) [WorldCat.org]

If God were surprised at his creation, could we be assured that it is very good. Although drawing on sophisticated resources Creator God, Evolving World is lucid and simple, taking time out to explain concepts such as teleology and metaphysics, and setting the context for the modern science versus religion debate.
