The Coronet is an automobile that was marketed by Dodge as a full-size car in the 1950s, initially the division's highest trim line but, starting in 1955, the lowest trim line. From the 1965 to 1975 model years the name was on intermediate-sized models. A coronet is a small crown consisting of ornaments fixed on a metal ring.

A Cummins B Series engine was also added to the engine lineup in 1989. For the first time, Dodge saw sales increase. The Cummins was coupled with a heavier-duty version of the A727 automatic or a 5-speed manual transmission and is available on 250 and 350 pickups and pickup-based chassis-cab trucks. This diesel engine option was different from the optional diesels in Ford and GM trucks.
