FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS Rome, 2015 Analytical Assessment Report for the Implementation of the Voluntary

Analytical Assessment Report - Food and Agriculture ...

The assessment of young children's development and learning has recently taken on new importance. Private and government organizations are developing programs to enhance the school readiness of all young children, especially children from economically disadvantaged homes and communities and children with special needs.

5 Assessing Learning and Development | Early Childhood ...

Sustainability is the process of people maintaining change in a balanced environment, in which the exploitation of resources, the direction of investments, the orientation of technological development and institutional change are all in harmony and enhance both current and future potential to meet human needs and aspirations. For many in the field, sustainability is defined through the ...

Sustainability - Wikipedia

Quality of life (QOL) is an overarching term for the quality of the various domains in life. It is a standard level that consists of the expectations of an individual or society for a good life. These expectations are guided by the values, goals and socio-cultural context in which an individual lives.
