Chapter 15 Darwin's Theory of Evolution The theory of evolution can explain the diversity of life on Earth. Evolution, or change over time, is the process by which modern organisms have descended from ancient organisms. A scientific theory is an explanation of natural events that is supported by evidence and can be tested with new evidence.

Chapter 15 Darwin's Theory of Evolution Summary

Although the defenders of the theory of evolution contend there is evidence that supports the theory of evolution, there is a multitude of serious problems with the theory of evolution which will be discussed shortly.
