On January 17, 2009, Israel's economy and even its strategic stature changed. A team led by the Texan firm Noble Energy Inc., drilled under 5,600 feet (1,700 meters) of water and 16,000 feet (5,600 meters) of rock and salt off Israel's shores in the Matan license to explore a prospect called Tamar.

The Geopolitics of Israel's Offshore Gas Reserves

The nuclear arms race was an arms race competition for supremacy in nuclear warfare between the United States, the Soviet Union, and their respective allies during the Cold War. During this period, in addition to the American and Soviet nuclear stockpiles, other countries developed nuclear weapons, though none engaged in warhead production on nearly the same scale as the two superpowers

As part of the biennial naval exercise Aman, the Pakistani government is organizing an International Maritime Conference. This year's iteration had the theme "Global Geopolitics in Transition: Rethinking Maritime Dynamics in the Indian Ocean Region".

Christian Bueger

While I was lecturing the other week on the controversies surrounding U.S. military bases on the Japanese island of Okinawa, one of my students expressed astonishment at the existence of such facilities, wondering why they would be considered necessary. Although I am used to students questioning the wisdom maintaining foreign military bases, I

The New Great Game refers to the conceptualisation of modern geo-politics in Central Asia post-Soviet Union breakup. This is characterised by the competition between regional, extra-regional and superpowers in Central Asia. This involves countries such as Russia, the US, China, India, Saudi Arabia, Britain, Turkey and Israel.
