Hamilton offers a variety of different needle point designs. Needle termination selection is very important to the proper function an application.

### **81610 | Laboratory | Hamilton Company**

One of the first steps to understanding the ideal syringe for your specific application is to know which termination is best. This article help you make that determination, explaining what to choose based on your requirements like dispense volume, need for autoclaving, desired dead volume, pressure tolerances, or necessary headspace.

Blinn was established as Mission Institute in 1883 by the Southern German Conference of the Methodist denomination. It became coeducational in 1888 when it began admitting women. In 1889, the institute's name was changed to Blinn Memorial College in honor of the Reverend Christian Blinn of New York, who had donated a considerable sum of money to make the school possible.

The Cruelty to Animals Act was the world's first legislation to regulate the use and treatment of live animals in scientific research. Known as the Vivisection Act (or Vivisector's Charter by those who opposed it), the history of its passage and the response to its administration opens a window onto nineteenth-century ideas about animals and the role of experimental science in medical ...

In mathematics, the quaternions are a number system that extends the complex numbers. They were first described by Irish mathematician William Rowan Hamilton in 1843 and applied to mechanics in three-dimensional space. A feature of quaternions is that multiplication of two quaternions is noncommutative. Hamilton defined a quaternion as the quotient of two directed lines in a three-dimensional ...

\*Electrode potentials in left column are from Evans (1963:end papers); potentials in the right column are from Hunsberger (1974:D120-125). As a blanket explanation for the corrosion of different metals in a shipwreck in salt water, the large galvanic cell metaphor and the electromotive position of the metals have been overused and are not completely understood. The large mass of different ...
