A flipped classroom is an instructional strategy and a type of blended learning that reverses the traditional learning environment by delivering instructional content, often online, outside of the classroom. It moves activities, including those that may have traditionally been considered homework, into the classroom. In a flipped classroom, students watch online lectures, collaborate in online ...

Periodic tables typically color-code parts of the table to group chemically similar elements together. There is some variation in this. "Metals" is really the largest category, which here combines the Transition Metals of the d-block with other metals of the p-block. Sometimes these are distinguished.

vol 6 pg 1. A Philosophy of Education Book 1. Introduction. These are anxious days for all who are engaged in education. We rejoiced in the fortitude, valour and devotion shown by our men in the War and recognize that these things are due to the Schools as well as to the fact that England still breeds "very valiant creatures."
