Exercise:: Paying attention, concentrating in the classroom

This is an old favourite and is listed on 'classroom strategies' info sheets that speech pathologists hand out to teachers. And it does make sense in that if you follow this advice then the the child with language impairment won't be at the back of the room dozing as you present verbal instructions to the class.

effective classroom strategies for teachers of children ...

Jigsaw is a cooperative learning strategy that enables each student of a "home" group to specialize in one aspect of a topic (for example, one group studies habitats of rainforest animals, another group studies predators of rainforest animals). Students meet with members from other groups who

are assigned the same aspect, and after mastering the material, return to the "home"

The Inquiry Chart (I-chart) is a strategy that enables students to gather information about a topic from several sources. Teachers design the I-chart around several questions about a topic. Students read or listen to several sources on the topic and record answers to the posed questions within the I-chart. Students generate a summary in the final row.
