The thought of Karl Marx. The written work of Marx cannot be reduced to a philosophy, much less to a philosophical system. The whole of his work is a radical critique of philosophy, especially of G.W.F. Hegel's idealist system and of the philosophies of the left and right post-Hegelians. It is not, however, a mere denial of those philosophies.

1.. IntroductionIn the last decade 'systems of innovation' has emerged as a new topic on the research agenda of innovation studies. It has opened up a promising strand of study, in which the scope of analysis has been broadened from artefacts to systems, from individual organisations (often firms) to networks of organisations.

From sectoral systems of innovation to socio-technical ...

At first sight a commodity presented itself to us as a complex of two things - use value and exchange value. Later on, we saw also that labour, too, possesses the same two-fold nature; for, so far as it finds expression in value, it does not possess the same characteristics that belong to it as a creator of use values.

The most shocking moment of the Žižek-Peterson debate occurred during the first five minutes. In Jordan Peterson's opening statement, he mentioned that he'd re-read The Communist Manifesto in preparation for the debate. This, in itself, wasn't especially surprising. One of many reasons the event was so hotly anticipated—as Dr. Peterson mentioned, Toronto scalpers were charging more ...
