Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Biology with Lab - Easy Peasy All-in-One High School

Do black bears hibernate? The short answer is yes. Although there has been past scientific debate about whether or not one of the world's most famous "hibernator" actually does so, black bears are able to survive severe weather and annual winter food shortages by denning and hibernating during those winter months.

A detailed revision guide detailing mutation, such as the process of mutations in animals and the evolution of trees, for GCSE biology.

Mutations and Evolutionary Trees - Getting-in

A crocodile's physical traits allow it to be a successful predator. Its external morphology is a sign of its aquatic and predatory lifestyle. Its streamlined body enables it to swim swiftly; it also tucks its feet to the side while swimming, making it faster by decreasing water resistance. Crocodiles have webbed feet which, though not used to propel them through the water, allow them to make ...

Science & the Scientific Method: A Definition

Introduction. When most people get a small cut on their skin, it bleeds for a little while and then it stops bleeding. The entire process by which the bleeding stops is called hemostasis. Hemostasis is important because losing too much blood can be dangerous, and the bleeding needs to stop in order for the wound to heal. An essential part of hemostasis is coagulation of the blood.
