

Offensive Security Advanced Web Attacks And Exploitation

Offensive Security Advanced Web Attacks

Advanced Web Attacks and Exploitation (AWAE) is the premier web application security and pentesting training. Through a unique combination of hands-on and classroom-based learning, AWAE condenses the time it takes for students to successfully learn about the complex tools, techniques, and approach that sophisticated cybercriminals use to create advanced exploits.

Advanced Web Attacks and Exploitation (AWAE) Online ...

AWE Registration Options Advanced Windows Exploitation is especially demanding, requiring a great deal of student-instructor interaction. For this reason, the AWE security training course is only available in a live hands-on environment at Black Hat USA in Las Vegas, NV.

India sees more cyber security startups with rise in attacks This uptick in cyber security startups has been primarily attributed to an increasing number of cyber attacks in the country across industry sectors.

India sees more cyber security startups with rise in attacks

An exploit (from the English verb to exploit, meaning "to use something to one's own advantage") is a piece of software, a chunk of data, or a sequence of commands that takes advantage of a bug or vulnerability to cause unintended or unanticipated behavior to occur on computer software, hardware, or something electronic (usually computerized). Such behavior frequently includes things like ...
