

## *Wild Flowers*

**Wild Flowers**

A wildflower (or wild flower) is a flower that grows in the wild, meaning it was not intentionally seeded or planted. Yet "wildflower" meadows of a few mixed species are sold in seed packets. The term implies that the plant probably is neither a hybrid nor a selected cultivar that is in any way different from the way it appears in the wild as a native plant, even if it is growing where it ...

**Wildflower - Wikipedia**

Wild Flowers are of special interest to flower lovers. Most wild flowers are beautiful, fragrant and colorful. Wild Flowers can be grown in gardens and just about anywhere else. Wildflowers are those that grow spontaneously under respective conducive conditions, even without being deliberately grown.
